

## ***Good Dreams Can Die***

*Feels like its over, like it never began  
Like a cheater who's just washed her hands  
Split like an atom-smasher of dreams  
With defeat the collider-  
Here come the night  
Lets settle this fight  
Then will give up the skies-  
The limit...forever  
It'll never stop burning, there's always desire  
And hope has always remained  
But its been such a long time, I'm tired and I know  
Good dreams can die  
Yes, good dreams can die  
It's the long compromise  
Then there's nothing but time-  
Over and over  
People tell me to persevere  
But people give up all the time  
They move on and on and on  
Feels like its over, like it never began  
Like a cheater who's just washed her hands  
Split like an atom-smasher of dreams  
With defeat the collider  
Here comes the night  
Lets settle this fight  
Then we'll give up the skies-  
The limit forever...Good dreams can die  
Good dreams can die  
It's the long compromise  
Then there's nothing but time  
Over and over,  
Over and over,  
Over and over,*
