

Healing

*If you ask me how I am
I'll say alright, alright
If you ask how I'm going to be
I'll say alright
Because now I believe
There's a better way than mine
I know its true
If you ask me where I've been
I'll say I've been gone, I've been gone
If you ask me where I'm going
I'll say I'm going home
I've been away too long
I think I'll just stay home
Tonight, its alright
And if you tell me that I'm different
I'll say I know, I know
And if you say that I've change
I'll say its true
It seems funny today
But I almost miss the pain
But I know, its alright*
